 Future Land Use Policy 1.2.5*

*Must be consistent at time  
 of site development*

Staff comments or additional information required:

- Please complete a stormwater management plan which includes treatment and provides control to stormwater runoff that originates within the development, or that flows onto or across the development from adjacent lands. Per Sarasota County Guidelines, use 100-year, 24-hour storm design for stormwater calculations. All other County regulation stormwater calculations, implementation, and illustrations are required for the Sarasota County Unified Development Code (UDC). In addition, please include the previously approved drainage plan for site project with Site*

## Step 1 – Pre-Application

### Part B Completed by DRC Members – Pre-Application DRC Checklist Form

*Development submission. 1.5 times treatment is required for developments with direct discharge to tidal waters.*

- 2. Clearly indicate existing and proposed development improvements for this site on all sheet plans. Submission should also include site totals for pervious and impervious areas (existing and proposed), on the site and development and construction plans. Stormwater facilities also need to be discussed in report narrative.*
- 3. Please provide an extended narrative supporting confidence in the underground stormwater system to adequately perform during the 100-year/24-hour design storm event. Sarasota County Stormwater strongly recommends for the design of the stormwater system to include attenuation volumes in storage capacity. Such a design will provide relief to development concerns by Sarasota County Development Review Staff members.*
- 4. If considering the use of Low Impact Development techniques for reducing stormwater runoff and providing stormwater management, please refer to the Sarasota County Low Impact Development (LID) Guidance Document (Updated May 2015) for applications and requirements. The LID guidance document can be found and downloaded by searching key words “Low Impact Development Guidance Document” on the Sarasota County Website, [www.scgov.net](http://www.scgov.net).*
- 5. Please include all documentation for proposed underground stormwater vault system, including materials from manufacturer.*
- 6. Please maintain historic drainage patterns and inflow/discharge points for the site.*
- 7. Please clearly label all buffers and easements on the construction plans.*
- 8. SWFWMD should be contacted for a permit.*

#### **Transportation (Public Works Mobility)**

Provide the following information in the narrative, maps or DCP:

- Provide proof of legal access to a public roadway, where no direct access is available.
- Provide a Traffic Impact Study criteria and methodology per R98-169.
  - Paper copy (\_\_\_\_\_ # of copies)
  - Electronic copy (CD)
- Provide a Traffic Impact Analysis Study.**
  - Paper copy (2 # of copies)**
  - Electronic copy (CD)**
- Provide an analysis and consistency review of applicable Comprehensive Plan policies.
- Staff comments or additional information required:**

*The proposed project is expected to generate more than 100 PM peak-hour trips. Therefore, a Traffic Impact Analysis is required. Please contact Transportation Planning Department at 941-861-0925 to set up a methodology meeting*

## Step 1 – Pre-Application
